Cassidy M. Foley (Student Member)

Education Mission Statement

The ACOP's Continuing Medical Education (CME) is designed to meet the objectives and purposes of the College and the needs of the membership.

An objective of the ACOP is "to foster measures and conduct activities to increase the effectiveness of the specialty of pediatrics and pediatric education at all levels." The ACOP Committee on CME has as its main function the implementation of programs that will improve the quality of health care for children.

Through surveys of its members during the year and at the CME Meeting, educational needs are identified. The scope of pediatric topics presented in the CME programs is based on these surveys.

Accreditation and Designation

The Sunday, November 1, 2009, program has been approved for 7.5 AOA Category 1-A CME credit hours. All other CME credit will be awarded by the AOA.

Please contact ACOP at 804-565-6333 with questions regarding this conference. Registration must be made through the AOA by going to the AOA website at www.do-online.org, or you can go to the ACOP website at www.ACOPeds.org and click on Meetings and Education. Please be sure to check the box for PEDIATRICIANS (PED) on your registration form in order to receive your syllabus.

Americans with Disabilities Act

The American College of Osteopathic Pediatricians has fully complied with the legal requirements of the ADA and the rules and regulations thereof. If any participant in this educational activity is in need of special accommodations, please contact AOA headquarters at www.do-online.org.
