AOA/ACOP Pediatric Track

San Diego

October 7-10, 2012 • San Diego Convention Center

Registration is available at www.osteopathic.org/inside-aoa/events/omed-2012

You must check the Pediatricians Box when you register in order to receive your syllabus and specialty CME credit.
Welcome to the AOA/ACOP Pediatric Track at OMED 2012

The CME committee would like to warmly welcome you to beautiful San Diego! The ACOP Pediatric Track conference at OMED 2012 will provide great speakers and topics for your learning experience and enjoyment. The topics include updates on immunizations, what is just around the corner and peeks at unusual infectious diseases as well as visiting with some of our common infections masquerading as less common infectious processes. On top of all that, we will revisit old infectious friends from our past now presenting themselves again across America.

The week will begin on Sunday, appropriately, with our perinatal/neonatal section with lectures aimed at providing updates on prevention of prematurity and the overall theme of prevention of long-term sequelae in the neonate.

As we all face the potential need to review for certification exams, there will be two mini-review sessions for those of us in need. We all face hard situations with patients and their families; we have a pair of helpful lectures on moral distress and cultural awareness. For those who desire interactive learning, you will not be disappointed. There will be an exciting Sim Wars session featuring the simulation equipment and staff from the San Diego Naval Hospital. We will also continue to provide updated information on the changes just ahead for re-certification requirements (Osteopathic Continuous Certification) which will in some form affect most of us.

We will wrap up the week with a day of head scratching as there will be an allergy section to ponder and a lecture on contact dermatitis. In addition to all of this, a sports medicine section on recognition of growth plate injuries and a lecture on prevention of sports related injury.

The CME committee proudly invites students and student chapters to attend and become acquainted with their future comrades, plus hopefully take home some updated information to amaze their faculty and fellow students.

There is something for everyone, including the beautiful San Diego weather and beaches. Plan to join your Osteopathic Pediatric colleagues for a great time in California.

Richard Magie, DO, FACOP - Program Chair
Margaret Orcutt-Tuddenham, DO, FACOP - Program Co-Chair
Marta Diaz-Pupek, DO, FACOP, FAAP - CME Committee Co-Chair
Ed Spitzmiller, DO, FACOP - CME Committee Co-Chair

Education Mission Statement

The ACOP’s Continuing Medical Education (CME) is designed to meet the objectives and purposes of the College and the needs of the membership.

The objective of the ACOP is “to foster measures and conduct activities to increase the effectiveness of the specialty of pediatrics and pediatric education at all levels.” The ACOP Committee on CME has as its main function the implementation of programs that will improve the quality of health care for children. Through surveys of its members during the year and at the CME Meeting, educational needs are identified. The scope of pediatric topics presented in the CME programs is based on these surveys.

Accreditation and Designation

During OMED 2012, DOs will be able to earn up to 24.5 hours of Category 1-A CME credit for attending the didactic programs of the specialty colleges and the conference’s closing joint session. However, it is possible to earn extra credit(s) by attending the Sunday sessions, breakfast sessions, and the AOA dinner session. ACOP sessions comprise a total of 24.5 Category 1-A Credit Hours as follows:

Sunday, October 7 ............ 6.5 credit hours (We anticipate being approved for 6.5 AOA Category A-1 CME credits for Sunday’s program.)
Monday, October 8 .......... 5.5 credit hours
Tuesday, October 9 .......... 5.5 credit hours
Wednesday, October 10 .... 7 credit hours

Please contact ACOP at (804) 565-6333 or email kim@ACOPeds.org with questions regarding this conference.

Americans with Disabilities Act

The American College of Osteopathic Pediatricians has fully complied with the legal requirements of the ADA and the rules and regulations thereof. If any participant in this educational activity is in need of special accommodations, please contact ACOP headquarters at (804) 565-6333 or via email to kim@ACOPeds.org.

Accommodations

The American Osteopathic Association (AOA) has arranged for special group rates during this Conference with a variety of hotels located close to Orange County Convention Center. To view hotels and make your reservation, please visit http://www.osteopathic.org/inside-aoa/events/omed-2012/Pages/Travel-and-Hotel.aspx

Discounted flights are available through United Airlines. To book, call (800) 521-4041 and use discount code 550KM.
SUNDAY, OCTOBER 7, 2012

PERINATAL/NEONATAL
Co-Chairs: Shannon Jenkins, DO, FACOP, FAAP
           Adam Bressler, DO, FACOP

6:30 am – 7:45 am  AOA Breakfast Seminar (must sign in)
7:00 am – 5:00 pm  AOA Registration
8:00 am – 8:45 am  Prevention of Prematurity
                   James T. Kurtzman, MD (Perinatologist)
8:45 am – 9:30 am  Rescue Antenatal Corticosteroids Effects
                   on Improving Neonatal Outcomes
                   James T. Kurtzman, MD (Perinatologist)
9:30 am – 10:00 am  Break
10:00 am – 11:00 am  Pulse-Oximetry Screening for
                     Congenital Heart Disease
                     Ashish Shah, MD
11:00 am – 12:00 n  CHD Prenatal Diagnosis and Counseling
                   Amy Svenson, MD
12:00 n – 1:30 pm  AOA Lunch and Learn
                   (Lunch and Learn seating is limited with pre-regis-
                    tration available prior to OMED 2012. For those not
                    attending Lunch and Learn sessions, lunch can be
                    purchased in the Exhibit Hall.)
1:00 pm – 4:00 pm  AOA Residency Fair in Exhibit Hall
1:30 pm – 2:30 pm  Improving Neonatal Outcomes
                   with Early Intervention
                   Cathleen Roberts, DO
2:30 pm – 3:30 pm  Preventing Central Line Infections
                   in the Intensive Care Nursery
                   Abraham Bressler, DO, FACOP
3:30 pm – 4:30 pm  Neonatal Chronic Lung Disease
                   with a Focus on Prevention
                   Henry Wojtczak, MD

Registration is available at
www.osteopathic.org/
inside-aoa/events/
omed-2012

You must check the
Pediatricians Box when
you register in order to receive
your syllabus and receive your
specialty CME credit.

**24.5 Category 1-A Credit Hours**
**OBJECTIVES**

**SUNDAY, OCTOBER 7, 2012**

**Prevention of Prematurity**
James T. Kurtzman, MD (Perinatologist)
Upon completion of this lecture, the participant will be able to:

- Define and Diagnose Chronic Lung Disease of Infancy.
- Explain the proposed pathophysiologic processes that lead to CLDI.
- Discuss NICU management strategies to prevent CLDI.
- List the long term complications of CLDI.
- Understand the role of the Primary Care Provider in managing CLDI.

**Rescue Antenatal Corticosteroids Effects on Improving Neonatal Outcomes**
James T. Kurtzman, MD (Perinatologist)
Upon completion of this lecture, the participant will be able to:

- Understand the scientific basis for pulse oximetry screening.
- Recognize the impact politics and media have on pulse oximetry screening.
- Lay the foundation for programmatic development in institutions.

**Pulse-Oximetry Screening for Congenital Heart Disease**
Ashish Shah, MD
Upon completion of this lecture, the participant will be able to:

- Understand the scientific basis for pulse oximetry screening.
- Understand the role of the Primary Care Provider in managing CLDI.

**CHD Prenatal Diagnosis and Counseling**
Amy Svenson, MD
Upon completion of this lecture, the participant will be able to:

- List the indications for obtaining a fetal echocardiogram.
- Discuss the advantages of prenatal diagnosis of congenital heart disease.
- Understand postnatal outcomes following the prenatal diagnosis of congenital heart disease.

**Improving Neonatal Outcomes with Early Intervention**
Cathleen Roberts, DO
Upon completion of this lecture, the participant will be able to:

- Describe the rationale and evidence base available for developmental care in the neonatal intensive care unit.
- Understand the origins of early intervention, its influence on early and late outcomes for infants born prematurely, and available resources.
- Discuss factors that influence the effectiveness of early childhood intervention.

**Preventing Central Line Infections in the Intensive Care Nursery**
Abraham Bressler, DO, FACOP
Upon completion of this lecture, the participant will be able to:

- Understand the effects of Catheter Associated Blood Stream Infections (CABSI) in the Neonatal Intensive Care Unit (NICU).
- Understand the causes of CABSI in the NICU.
- Understand the main techniques that can be used to reduce NICU CABSI.
- Understand additional techniques that can reduce NICU CABSI.

**Neonatal Chronic Lung Disease with a Focus on Prevention**
Henry Wojtczak, MD
Upon completion of this lecture, the participant will be able to:

- Define and Diagnose Chronic Lung Disease of Infancy.
- Explain the proposed pathophysiologic processes that lead to CLDI.
- Discuss NICU management strategies to prevent CLDI.
- List the long term complications of CLDI.
- Understand the role of the Primary Care Provider in managing CLDI.

**MONDAY, OCTOBER 8, 2012**

**Osteopathic Continuous Certification**
Fernando Gonzalez, DO, FACOP
Upon completion of this lecture, the participant will be able to:

- Define OCC.
- Outline the five components of OCC.
- Learn the individual requirements of OCC.
- Learn the “Go Live” date for OCC.

**Old Diseases, New Again**
Philip Malouf, MD
Upon completion of this lecture, the participant will be able to:

- Describe the current national and global epidemiology of Measles, Polio, Mumps, and Tuberculosis.
- List risk factors for the development of infectious disease outbreaks in the United States.
- Appropriately diagnose and manage patients with Measles, Polio, and Mumps.
- Implement primary prevention measures to reduce the risk of vaccine-preventable infectious outbreaks.

**Cultural Awareness**
Alissa Swota, PhD
Upon completion of this lecture, the participant will be able to:

- Recognize the profound influence of culture on health care decision making.
- Gain an appreciation for the ways in which increasing cultural awareness can help to avoid conflict in the clinical setting.
- Identify areas where further education in communicating across cultures would be possible.

**Moral Distress**
Alissa Swota, PhD
Upon completion of this lecture, the participant will be able to:

- Define the concept of moral distress.
- Recognize situations in which moral distress is encountered.
- Identify ways to deal with moral distress in the clinical setting.
SIM Wars
Margaret Orcutt Tuddenham, DO, FACOP; Mary Patterson, MD; and staff from the Naval Hospital San Diego Simulation Lab
Upon completion of this lecture, the participant will be able to:
• Identify two ways in which simulation improves patient safety.
• Understand how simulation promotes teamwork and communication in healthcare teams.
• Understand how simulation improves performance in high-risk and infrequent situations.

Update on Immunizations
Larry K. Pickering, MD
Upon completion of this lecture, the participant will be able to:
• Review how immunization recommendations are made in the United States.
• Highlight recent changes to the childhood and adolescent immunization schedule.
• Summarize vaccines recommended for health care professionals.
• Discuss specific recommendations for pertussis, HPV, and meningococcal vaccines.

Uncommon Infectious Disease in Kids
Denise Bratcher, DO
Upon completion of this lecture, the participant will be able to:
• Recognize clinical features associated with certain infections uncommon to children in the United States, such as tularemia, brucellosis, and others.
• Describe treatment options for the same uncommon pediatric infections.
• Identify epidemiologic sources for transmission and potential control measure for these pediatric infections.

What Lies Ahead in Disease Prevention?
Larry K. Pickering, MD
Upon completion of this lecture, the participant will be able to:
• Highlight uses of IM and IV immunoglobulin preparations.
• Discuss prevention of group B streptococcal disease.
• Summarize antimicrobial prophylaxis in children.
• Review prevention of foodborne diseases.

Unusual Presentation of Common Infectious Diseases
Denise Bratcher, DO
Upon completion of this lecture, the participant will be able to:
• Recognize unusual manifestations of hand, foot, and mouth diseases.
• Identify features of disseminated staphylococcal disease.
• Recall varied clinical manifestations of tuberculosis.
• Recognize clinical features of invasive group A streptococcal infections.

Anaphylaxis
Amy L. Marks, DO, FACOP
Upon completion of this lecture, the participant will be able to:
• Diagnosis of anaphylaxis
• Evaluate common triggers of anaphylaxis.
• Summarize the basic workup for anaphylaxis.
• Develop a rational treatment regimen for anaphylaxis.
• Understand the immunologic mechanisms involving anaphylaxis.
• Identify indications for referral to an allergist for further treatment and diagnostics.

Contact Dermatitis
Amy L. Marks, DO, FACOP
Upon completion of this lecture, the participant will be able to:
• Diagnosis of Contact Dermatitis
• Evaluate common triggers of contact dermatitis.
• Summarize a basic workup for contact dermatitis.
• Develop a rational treatment regimen for contact dermatitis.
• Understand the immunologic mechanisms involving contact dermatitis.
• Identify indications for referral to an allergist for further treatment and diagnostics.

Pollen 101
Robert W. Hostoffer, Jr., DO, FACOP
Upon completion of this lecture, the participant will be able to:
• Understand the seasonality of pollen
• Understand pollen counting.
• Identify pollen characteristics.

Growth Plate Injury in Pediatric Sports
Richard Parker, DO, FAOASM
Upon completion of this lecture, the participant will be able to:

Review of Primary Immunodeficiencies
Robert W. Hostoffer, Jr., DO, FACOP
Upon completion of this lecture, the participant will be able to:
• Understand the basic science of primary immunodeficiencies.
• Understand the clinical spectrum and diagnostics of primary immunodeficiencies.
• Identify the appropriate treatment of primary immunodeficiencies.

Injury Prevention in the Adolescent
Mary L. Solomon, DO
Upon completion of this lecture, the participant will be able to:
• Know common sport injuries among adolescents.
• Be familiar with programs designed to prevent soccer injuries.
• Identify exercise programs to prevent basketball injuries.
• Understand hockey and football regulations in relation to sport injuries.
• Discuss the impact sport equipment has had on athlete safety.

MEMBERSHIP CRITERIA

Fellow
Licensed osteopathic physicians certified in pediatrics by the American Osteopathic Board of Pediatrics or the American Board of Pediatrics. Fellows may vote on all governance issues, hold elective office, and serve on all ACOP committees.

Associate
Licensed osteopathic physicians who have completed a pediatric training program acceptable to the ACOP Executive Council. Associate members may vote on all governance matters, hold elective office, and serve on all ACOP committees.

General
Licensed osteopathic physicians who have a personal interest in pediatrics. General members may not vote or hold elective office, but may serve on all ACOP committees.

Candidate (Intern/Resident/Fellow-in-Training)
Interns, Residents or Fellows-in-Training participating in an approved training program. Candidate members may not vote or hold elective office, but may serve on all ACOP Committees.

Student Membership: Students must complete the Student Membership Application.

All applicants will be reviewed by ACOP, and applicants will receive prompt notice when approved. The process takes approximately two months.

☐ Fellow* ............................................................... $400   ☐ Intern** ............................................................. $20 End Date __________
☐ Associate ............................................................ $400   ☐ Resident** .......................................................... $30 End Date __________
☐ General .............................................................. $400   ☐ Fellow-in-Training** ....................................... $30 End Date __________

*Please provide: Copy of state license and proof of board certification, if applicable.

**For Interns, Residents and Fellow-in-Training: Note from program director indicating participation in a training program.

Payment Options (Please do not send cash for payment)

☐ Check or Money Order Enclosed (US Funds) Made Payable to: ACOP, 2209 Dickens Rd., Richmond, VA 23230-2005.
